

STAY CALM

Supply Chain
Stress Management
Checklist

Cyberattacks on the supply chain have been growing exponentially and are generating stress and anxiety for security and risk management professionals.

CORL has the right prescription to help you stay calm and focused in the face of cyber-adversity.

Sources of Cyber-Stress

51%	of businesses have suffered a data breach caused by a third party*
44%	suffering a breach within the previous 12 months*
74%	of recent third-party data breaches were the result of giving too much privileged access to third parties*
1,500+	number of organizations infected with ransomware from Kaseya supply chain breach
18,000+	number of organizations breached by SolarWinds attack
30,000+	number of organizations breached by Microsoft Exchange attack
100+	number of organizations breached in Accellion File Transfer attack

Nation states are strategically targeting the supply chain

Supply Chain Stress Management Checklist

- ✓ **INVEST** in your third-party risk management program, leadership, and team
- ✓ **UPDATE** vendor inventories and tier vendors
- ✓ **PRIORITIZE** vendors for assessment and remediation
- ✓ **REPORT** on vendor risk across the entire vendor portfolio
- ✓ **DRIVE** and track remediation
- ✓ **EVALUATE** and limit privileged access for third parties
- ✓ **VALIDATE** controls and gain assurance via assessment data
- ✓ **TRACK** KPI, KRI, and SLA metrics on program performance
- ✓ **INCORPORATE** vendors into incident response simulation exercises
- ✓ **PREPARE** and practice a communication plan to customers for supply chain incidents
- ✓ **MONITOR** and adopt emerging supply chain regulations and standards
- ✓ **AUTOMATE** third-party risk management processes
- ✓ **LEVERAGE** vendor risk assessment data from CORL's next generation exchange
